Our Ideology

“No one ever attains very eminent success by simply doing what is required of him; it is the amount and excellence of what is over and above the required that determines the greatness of ultimate distinction.”

Charles Adams

At OneSource Linens, our ideological learnings resonate with this thought. We believe that growth is built on doing better than what is good enough, rising above individual limitations and transgressing borders of circumstantial impediments

What makes us different?

The problem we found when researching market was that most other companies offer so much choice to their customers in terms of thread counts, weights, sizes etc. It is impossible to tell which are tried and tested and which are the best value for money, most durable, frequently used etc etc.

We have always kept our ranges limited and offered to our customers what we considered to be the best products available at the price they are willing to pay.

But this does not mean that we cannot meet the customized requirements of our clients. We are ever ready to work on our client's customized needs.
